The Procter & Gamble	27 Oct	AA-	EUR	3,726	4	4y, 8y, 12y, 20y	+38 to +120

* includes subordinated or hybrid bonds. Spreads over each bond's benchmark (UST for USD, Bunds/mid-swaps for EUR, gilts for GBP).

PRICING CONTEXT: 20 AUG 2026 TO 31 OCT 2026

KEY THEMES

- Tech issuance surge led month, with Microsoft's $25bn 10-bond transaction across 2–40y tenors at +25 to +105 setting large-issuer tone.
- Spread volatility uneven across curve: 1–3y wider at 76bp, 5y wider at 94bp versus prior; 10y tighter at 90bp, 30y+ tighter at 95bp.
- Financials active with 4 of top 6 deals; JPMorgan, HSBC, Barclays issued across short and mid tenors at +70–+143 range.

Source: SEC EDGAR pricing term sheets (form FWP), 20 Aug 2026 to 31 Oct 2026. Terms extracted from filings with Claude (claude-haiku-4-5-20251001); all figures computed in Python from the extracted data. Commentary drafted by Claude from those figures and checked number-by-number against them. Extraction QC: 98.4% of 1290 extracted values traced to source filings; 100.0% correct on a manual spot check of 122 values. LIMITATIONS: covers SEC-registered deals only, so excludes 144A/Reg S issuance (most US high yield and many European deals); volumes are a sample, not the market. Non-USD sizes converted at Federal Reserve H.10 rates for 2026-09-18. Composite rating = middle of Moody's/S&P/Fitch; sector is a model classification. Tenor measured to par call where earlier. Automated draft for discussion; not investment advice.
